

# 80/80/80 Faith Promise Budget Mission Worksheet

*Six Simple Steps for New Vision with Your Global Wesleyan Family*

## STEP #1 - Review the 80/80/80 Power Point

Before you use this tool take the time to view the 80/80/80 power point with included manuscript  
Keep in mind the 80/80/80 principle assumes all budget items will be assigned to one of four areas:

First 80%  
International Ministry

A) Local/Home (20%)

Second 80%  
Global Partners

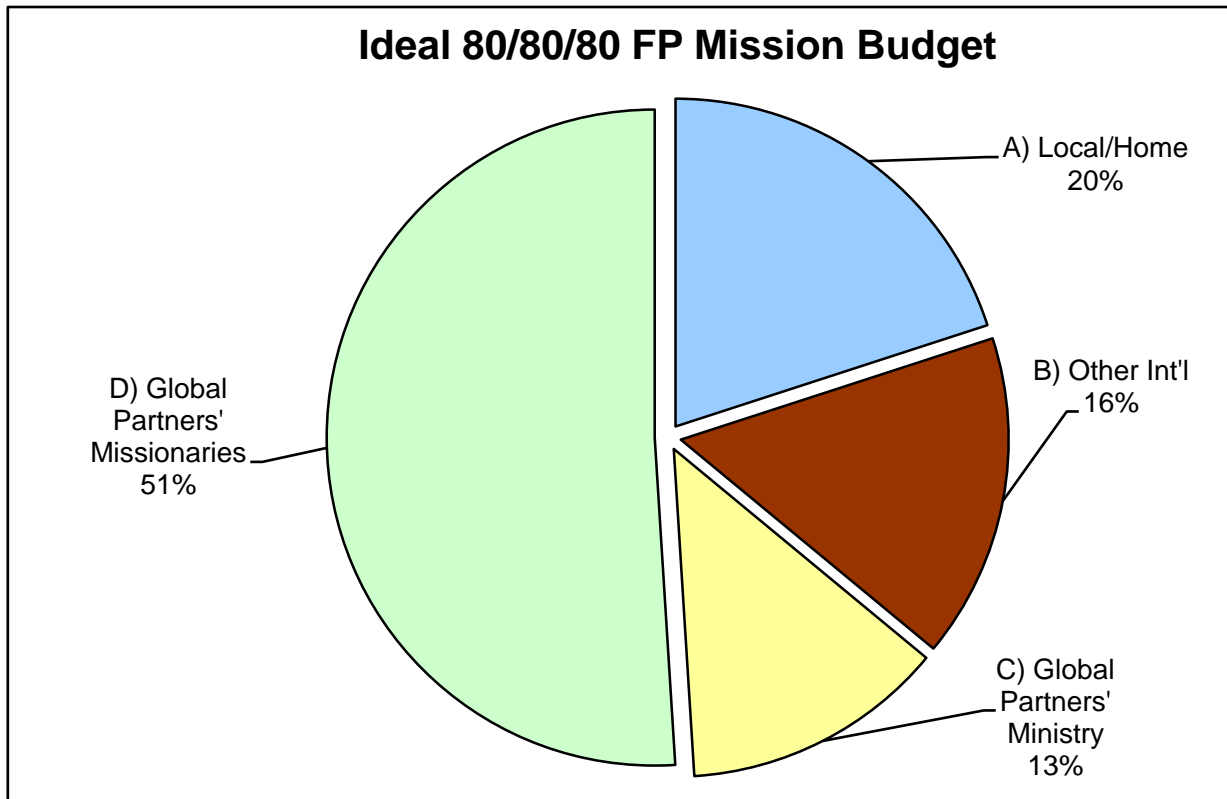

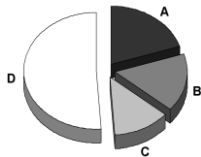

B) Other International (20%)

Third 80%  
D) GP Missionaries

C) Global Partners'  
Ministry (20%)

Percentage Breakdown

**STEP #2** - Enter existing data from your current Faith Promise Mission Budget as follows:  
 You will need all current mission budget information for local, home and int'l funding  
 (Simply insert rows as needed for each section)  
 Upon completion of this data you will see your Church FP Mission Budget pie graph

A) **Local & Home:** This includes funding that directly benefits North American people/ministries  
 Be sure to include funding for church staff/members who receive support for short term mission trips

Budget item	\$ Amount
Subtotal:	
Percentage of Total:	
80/80/80 Target Percentage:	20.00%

B) **Other International:** This includes all areas of funding outside North America (minus GP)  
 This may include the missionary funding of Wesleyans serving with other missionary organizations

Budget item	\$ Amount
Subtotal:	
Percentage of Total:	
80/80/80 Target Percentage:	16.00%

C) **Global Partners' Ministry:** This includes areas of funding other than missionaries  
 This may include specific field projects, memorial/honor gifts, National Ministry Shares, etc.

Budget item	\$ Amount
Subtotal:	
Percentage of Total:	
80/80/80 Target Percentage:	13.00%

D) **Global Partners' Missionaries:** List all GP Missionaries

Budget item	\$ Amount
Subtotal:	
Percentage of Total:	
80/80/80 Target Percentage:	51.00%

Total Faith Promise Budget:

**STEP #3** - If Local/Home + Other Int'l is greater than 36% of your budget then move on to step four  
**A + B % = 0.00%**

If pie wedges A+B equal 36% or less you only need make sure that pie wedge D is greater than 50%  
If you are already giving more than half of your Faith Promise Budget to GP Missionaries then...  
**CONGRATULATIONS** - you have already applied the 80/80/80 principle!

**STEP #4** - Applying the 80/80/80 principle (see power point slides 14 & 15)  
Add A + B = **\$0.00**

If this amount was **exactly 36%** of a new Faith Promise Mission Budget the new total would be:

**New Faith Promise Budget = \$0.00**

**STEP #5** - Find the Vision Gap: Subtract your current FP total from the new FP total  
Vision Gap = **\$0.00**

**STEP #6** - Contact Global Partners and we will resource your leadership with options for your local church to prayerfully cast new vision to reach out to share His Gospel to the ends of the earth
